Joyce,

Yes please verify that we can go to Deer Trail as an alternate. I am working on review of the data and hoping to prepare profiles this week. I will forward once I complete the review. I hope you had a Merry Christmas as well and I am sure email will be floating around the next couple of days.

Thanks TJK

Subject: Neuhauser LF Site: Proposed disposal facilities

Hi Tom – Hope you had a great holiday!

Just a reminder, any proposed disposal facilities need to be acceptable per the CERCLA Off-Site Rule. So far, I have checked on the Front Range Landfill and the Clean Harbors incinerator in Kimball, Nebraska, both of which are considered acceptable.

Tobi Moore mentioned the possibility of using the Deer Trail Landfill in eastern Colorado. Let me know if you want to check on the acceptability of this facility.

Thanks!

Subject: FW: Front Range Landfill in Erie, Colorado

Joyce,

Please see the email below from Ed Smith with CDPHE. He confirmed that the Front Range Landfill in Erie is acceptable to receive CERCLA wastes per the Offsite Rule policy. This finding of acceptability is good through December 30, 2017. Thank you.

Hey Linda, we do not have any enforcement issues with Front Range Landfill and there are no groundwater issues.

Thanks

Ed,

Would you please let me know if the Front Range Landfill in Erie, Colorado, is acceptable for receipt of non-hazardous CERCLA wastes, meaning that it is in compliance and has no uncontrolled groundwater releases?
Thank you.
